FINANCIAL PEACE UNIVERSITY

Empowers individuals and families and gives hope to everyone from the financially distressed to the financially secure.

Financial Peace University is an entertaining and educational video series designed to teach families effective, time-proven principles to **better manage their finances and obtain goals for their future**. As Dave Ramsey counseled thousands of families, he saw an enormous need to make available tangible, easy to use instructions, baby steps, to help **change people's financial behavior**.

Dave Ramsey will have you laughing and crying as he teaches the video lessons. The program teaches how to put together a **monthly spending plan** based on your personal income, step-by-step how to get out of debt, how to build an emergency fund and save for your future.

Then following the video, a facilitator hosts the small group discussion. **This is where true accountability and behavior change occur**. The group applies the “baby steps” needed to walk in financial peace. With FPU, families acquire financial knowledge but they also, have accountability through their class facilitator to change their financial behavior. The financial stress begins to dissipate throughout this program. With the burden of debt lifted, families are better able to manage their monthly personal finances and control their saving and spending so they can plan for the future.

**The average family reduces their debt by \$5,300.00
and saves \$2,700.00 during program.**

WHAT MILITARY PERSONNEL ARE SAYING ABOUT FINANCIAL PEACE UNIVERSITY:

“Financial Peace University was the tool our family really needed. FPU changed the way we handle money and turned our finances completely around. We managed to pay off over \$5500 worth of debt and to create an emergency fund within 90 days. We recommend the program to anyone who wants to seriously change their financial situation and provide financial security for their family.”

-Cleveland and Gwen Richardson, United States Military

“FPU allows us to realize what our goals need to be, where we should apply the money to. I’ve seen airmen when they get the bonus just go out and spend all of it and not even think about investing it or trying to pay off any debts.”

-Ian Crandell, United States Military

“Did you know that Officers will have at least \$1,250,000 and Enlisted will have \$750,000 go through their hands during a 20 year career? Financial Peace University will give you the tools to be able to truly retire after 20 years of service, if that is your dream.”

-Stephen and Nancy Sheridan, United States Military

“FPU gave me a better focus to be able to take care of not only myself but those that I serve with. When we have a good financial plan it helps us feel safe and secure. It also helps us feel good about what we’re doing. Financial Peace University has given me that peace and security.”

-Dennis Fonville, United States Military

“In the military, everything that causes worry in the soldier’s life affects the mission and affects the unit. It’s so important to teach them where their money is going and how to best manage it.”

-Scott and Wendy Morris, United States Military
